Dear Raanan,

About 12 years ago you and your foundation started participating with us in the "food delivery operation" in the city of Ashdod.

Since then, and until this day, we deliver our "Shabbat Food Basket" to over 450 needy people, every single Thursday afternoon. The primary recipients of this food box, are lonely elderly people, most of which are Jewish newcomers to who have no money, and no family in Israel.

For them, our support is a critical help. The visit our volunteers pay them and the hefty delivery of essential foods, each week, is a ray of light, hope, and an important economic relief.

Please convey to your donors and partners in America, how appreciative we are for this support.

In the Psalms, 71, 9, we are commanded not to abandon our elderly. On behalf of our Amuta convey our Blessings to you and to all of Israel Laad supporters, for helping us fulfill this important Mitzva.

Shalom,
